Those foreign countries which ar talking about retaliating against on tariff law will think several times be fore they deliberately cut off their man ket with the United States which the now have. When the authorities of those countries recognize the fact thu they will, by retaliation, lose a marke two or three times as valuable as the one which they propose to take awa from the United States, they will aban don the idea.

Or the 451 colleges and universities in this country, only forty-one are closed to women. But to make up for this lack, there are 113 schools of higher learning open to women only, and having 30,000 students. The University Courier says: "Will it not soon be time to raise the question why men should be shut out from the advantages of these 143 schools of higher education which now are open to women only? Forty-one institutions are closed to women and 143 are closed to men. Why?'

THAT is a noteworthy act of Commander-in-Chief, Clarkson, of the Grand Army of the Republic, inviting Gen. John B. Gordon, of Georgia, representing the Southern association of Confederate Veterans, to be present and speak at the camp fire on the occasion of the approaching Grand Army encampment at Buffalo. We believe this is the first official recognition of the Confederate organization by the Grand Army at its encampments, and it marks a long step in the direction of courtesy and patriotism.—Boston Herald.

BEFORE his inauguration President McKinley decided upon three things looking to a settlement of the financial question. One was that our diplomatic representatives at the leading foreign courts should received special instruc tions to direct their efforts toward bringing about an agreement with these governments to take up the subject of an international agreement as to coinage; another was to appoint a commission to represent the United States in an international conference; and the other was that a domestic currency commission should be appointed to draw up a plan for a national currency system. The latter remains to be done. Immediately upon the disposal of the tariff bill the Republicans contemplate the passage of an act authorizing the president to appoint a currency commission to make an investigation and report recommendations to the regular session in December. This action was foreshadowed by Secretary Gage in the statement he made to the business men of Cincinnati. Mr. Gage said:

If you for a moment, any of you, have allowed yourselves to believe that the great mission, the great duty imposed upon this administration, of establishing the currency and banking system of this countty upon solid and enduring ground is forgotten, put that aside.

Although Mr. Gage spoke these words they were evidently inspired by the president. After the question of revenue has been settled the financial question will received attention.

Made the Most of his Opportunities Maj. Ginter, the Richmond tobacco king, has resigned his position as direcof the American Tobacco company, and will soon retire from active business, worth \$8,000,000. When he laid down his musket at Appomattox he did not have a dollar or the prospect of one. He walked to Richmond and relled a truck

for six months at a salary of \$1 a day. His career is one of the most remarkable in the business history of the country. He is a man of great liberality. He has given a great deal of money to charity and worthy public enterprises. He built the Jefferson, the finest hotel in the south, and one not surpassed in the whole country for beauty of architecture and general completeness. "For three years we have never been

without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, says A. H. Patter, with E. C. Atkins Co., Indianapolis, Ind., "and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to care not simply stop pain, but cure absolutely. It is all right, and anyone who tries it will find it so. Cheap Travel.

In the Consular Reports for June 1896, Consul Monagham, writing from Chemnitz, Germany, says the radroad system of Germany is the most complete. best served, best repaired and most prosperous of any in the world. He adds that the yearly and round trip tickets are cheaper than elsewhere. He says that the tickets for scholars and some others are "so cheap as to be outside of the range of belief. They pay for one ticket, for any period less than twelve months, second class 47 and six tenths of a cent; third-class not quite thirtynine cents. For a full year the charges are as follows: Second class, 35 cents and seven tenths; third class 23 and 8 tenths of a cent, besides there are combination round trip tickets by which one is able not only to go all over the Empire but into Italy at very reduced rates."

Just think of scholars being allowed to make trips daily for any distance and back, the year round at a cost of not over 25 cents per year. We may well suppose that every person in the Empire is certain to get a supply of yearly tick ets over certain routes. It costs us more to make one trip of fifty miles and back than it will a German in his own country to travel all over the empire if he buys the annual tickets.

Condensed Testimony.

Chas. B. Hood, Broker and Manufacturer's Agent, Columbus, Ohio, certities that Dr. King's New Discovery has no equal as a Cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne. Ind., testifies that he was cured of two years standing, caused by La Grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it and never know it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of Croup, because it instantly relieves. Free Trials Bottles at Clark O. Proud's drug store.

Aged Selfishness and Imbecility,

Nearly all the invalids and aged persons are prone to seek a change of climate in the vain hope of adding a few months to life; of getting a short reprieve from that sentence of death originally imposed on them. To do this the poor creatures will sacrifice the welfare of their growing families. And in order that the old invalid may excepe the cold winters of our healty north, the very lives of all the young or growing members of the family will be risked by removal to some milder, but of course, more malarious clime. Stay at home old Three Score and Ten and let the familiar clods cover your wornout carcass and let not the cursed sufishness of Eid. sacrifice the mounting vigor of the young.

Dreadfully Nervous.

GENTS: I was dreadfully nervous. and for relief took your Karl's Clover Root Ten. It quieted my nerves and strengthened my whole Nervous system. I was troubled with Constipation, Kidney and Bowel trouble. Your Tea soon cleansed my system so theroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford. Conn. Sold by T. S. Hinde.

How Sugar is Made White.

The way sugar is made perfectly white, it is said, was found out in a curious way. A hen that had gon through a clay mud puddle went with her muddy feet into a sugar house. It was observed by someone that wherever the tracks were the sugar was whitened. This led to some experiments. The result was the wet clay came to be used in retining sugar. It is used in this way: The sugar is put into wooden jars shaped as you see the sugar loaves. The large ends are upward. The smaller ends have a hole in them. The jar is filled with sugar, the clay put over the top and kept wet. The moisture goes down through the sugar and drops from the hole in the small end of the jar. This makes the sugar perfectly white
